

Sustainable Development in Low-Carbon Age — Challenges and Options for Energy Industry

Jeanne Johns
President, BP Asia Olefins & Derivatives
30 March 2010, Beijing CBCSD AGM

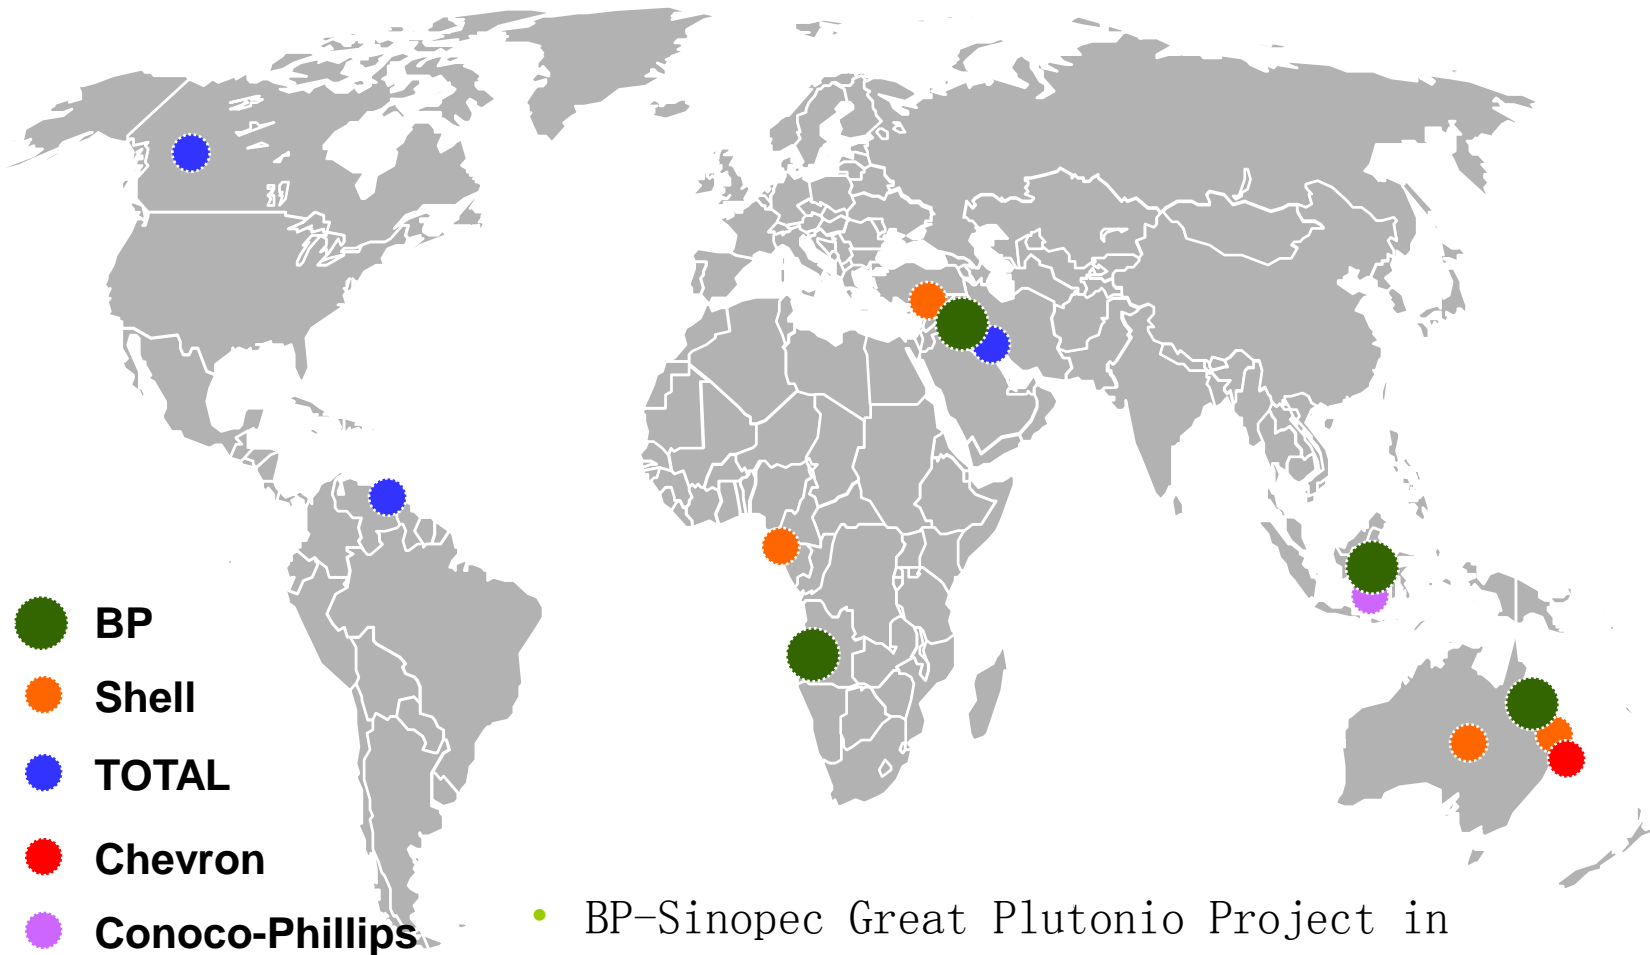

Energy Security through Diversity

Oil Biofuels Gas Coal Nuclear Hydro Wind Solar Oth. Renewables

- Benefits of Natural Gas
- Clean Energy Commercialization Center (CECC)
- Solar energy

"Going Out" Process

- BP
- Shell
- TOTAL
- Chevron
- Conoco-Phillips

- BP-Sinopec Great Plutonio Project in Angola
- BP-Petrochina Rumaila Oilfield in Iraq

Energy Efficiency

Environment

Cost

**Security of
Supply**

- Energy efficiency is the only known solution which addresses all three challenges of energy policy simultaneously
- BP aims to improve energy efficiency through its own operations
 - Zhuhai PTA
 - Chongqing Acetyls
 - SECCO expansion
- ...and through the use of its products
 - Ultimate Gasoline
 - Lubricants
